

IN TODAY'S FAST-PACED REGULATORY
ENVIRONMENT, LIFE SCIENCES
PROFESSIONALS ARE CONSTANTLY
CHALLENGED TO WORK MORE PRODUCTIVELY.

TOOLS

ISI ToolBox Pharma

In today's fast-paced regulatory environment, life sciences professionals are constantly challenged to work more productively. One area where efficiencies can be gained is in the processes involved in creating and managing the volumes of documents maintained within a pharmaceutical organization.

With the industry's most robust set of tools and features, ISIToolBox provides the functionality to create, edit, and manage your regulatory-compliant documents with ease. By being able to work with and standardize PDFs, companies gain a unique advantage for regulatory operations personnel to expedite time to market while enhancing document compliance for eSubmissions. Efficiently managing, validating, and auditing document bookmarks and hyperlinks; instantly creating a Table of Contents based on font information on the current document structure; and performing other document formatting tasks become imperative as PDF documents continue to evolve as an industry standard.

**THE INDUSTRY'S
POWERHOUSE PLUG-IN
FOR ADOBE ACROBAT
JUST GOT BETTER!**

THE ISIToolBox PHARMA EDITION PROVIDES NEARLY 50 PLUG-INS FOR ADOBE ACROBAT AND IS DESIGNED BOTH TO DRAMATICALLY ENHANCE FUNCTIONALITY AND TO FACILITATE THE TASKS INVOLVED IN WORKING WITH PDFs. WHETHER YOU'RE WORKING ON A STUDY REPORT, PATIENT DATA LISTING, CASE REPORT FORM, OR OTHER REGULATORY DOCUMENT, ISIToolBox CAN HELP YOU WORK SMARTER, FASTER, AND STRESS FREE.

THE TOP 25 PHARMA COMPANIES IN THE WORLD ARE ALL
USING ISIToolBox. ARE YOU?

CREATE BOOKMARKS AND HYPERLINKS WITH EASE

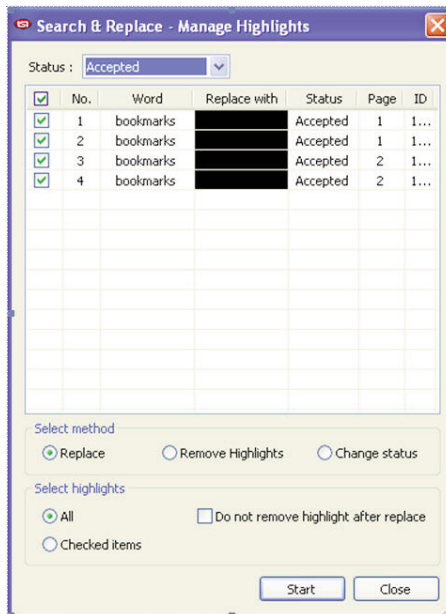

ISIToolBox puts an end to those tedious and time-consuming PDF document navigation chores. Imagine being able to bookmark all of your documents instantly or create thousands of hyperlinks with just one click. With ISIToolBox, you can do all that and a lot more.

INSTANTLY CREATE A TABLE OF CONTENTS

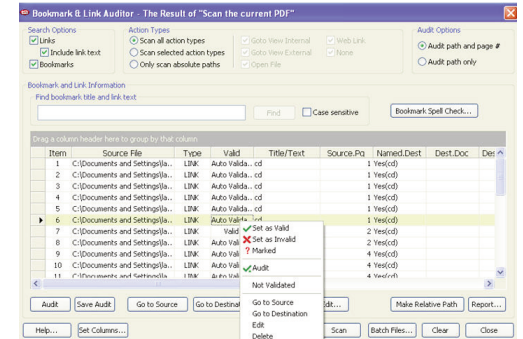

If you've ever had to manually prepare a Table of Contents in a PDF, you'll appreciate how easily ISIToolBox can automate the process. Create your Table of Contents based on font information or current document structure.

SEARCH AND REPLACE

You'll now be able to search on a word or phrase and replace that instance with other text or redaction. It's as easy as highlighting areas for redaction and applying the redaction at a later time.

MANAGE, VALIDATE, AND AUDIT

ISIToolBox simplifies the management of your bookmarks and hyperlinks while ensuring complete accuracy and accountability. The one-touch process enables you to view all of your links and bookmarks at once and validate their reliability with an audit trail. It's like having a team of QA auditors at your side as you easily make changes and save audits for future quality assurance.

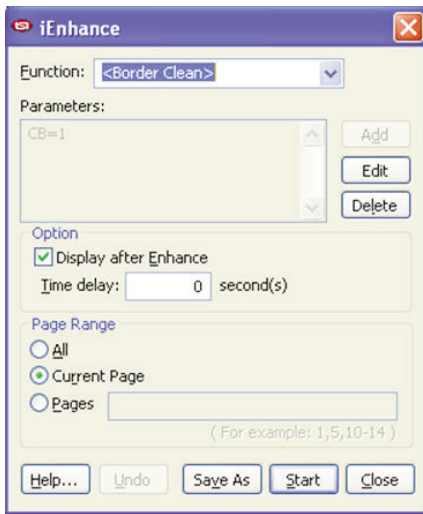

AN ENTIRE PALETTE OF PUBLISHING TOOLS AT YOUR FINGERTIPS

From splitting or merging PDFs to stamping and watermarking pages, a host of tools helps you reach publication milestones more quickly and easily. ISIToolBox gives you total control from the very beginning of your project as well as smart functionality throughout. And you finish off with the kind of quality assurance that makes ISIToolBox publishing tools an indispensable part of your submission process.

ENHANCE THE QUALITY OF YOUR PDFs

ISIToolBox will dramatically improve the quality and integrity of your poorly scanned documents. Quickly create custom artifact filters, crop irrelevant borders, or just deskew any image-based document—and do much more to improve the readability and reliability of your PDFs.

EXTRACT TEXT AND IMAGES FROM PDFs WITH EASE

Getting the information you want from PDFs has never been easier or more precise. Extracting text and graphics is as simple as clicking a mouse and dragging a box around the area you want to extract. High-resolution text and images are saved to the clipboard and can be imported to any word processing program, making integration seamless and stress-free.

INSTANTLY FORMAT HUNDREDS TO THOUSANDS OF FILES

Choose individual files or entire directories to be formatted with ease. The batch function automates and simplifies time-consuming and

repetitive tasks. Customize your preferences, and ISIToolBox quickly edits your PDFs. Save your settings and automate the process without having to reenter your selections. It's a fast and easy way to ensure that your submissions are consistent and compliant.

LEVERAGE THE FLEXIBILITY OF NAMED DESTINATIONS

ISIToolBox features end-to-end support for named destinations, from easy generation to linking or bookmarking. That means you no longer need to worry about the accuracy of your links when repaginating pages or modifying documents. With ISIToolBox you'll create superior hyperlinks or bookmarks that never break or target the wrong destination.

SOME OF THE NEW FUNCTIONALITY ADDED TO ISIToolBox INCLUDES:

TOC BUILDER

- Transitioned from Compose, users can now create a Table of Contents based on font information or the current document's structure.

BOOKMARK GENERATOR

- Bookmark documents based on a variety of methods, including by Font information, by Area on a Page, by Keywords, or based on links in a document. When bookmarking by font, you can now use multiple fonts for a single level and define tolerance levels.

BOOKMARK EDITOR

- To help eliminate variations in bookmark names, users can now bookmark a document based on a predefined list or just bookmark from a single dialog with all options preset.

PAGE STAMPER

- To provide more flexibility in publishing requirements, there is additional support for Bates numbering, linking of stamps, and multiple overlay documents.

SEARCH & REPLACE

- Search on a word or phrase and replace the existing text with other text or completely redact it from the document.
- Optionally, users can set areas for redaction, go through an approval process, and apply the redaction or replacement at a later time.

IREDACT

- Users are now able to set redactions for review and approval prior to being permanently applied.

HIDDEN TEXT MANAGER

- Reveal hidden text to spell check the OCR'ed content within a document.

MASK

- Hide an area or text—such as a header or footer—from being viewed or printed. Since it's not removed, the text can still be searched.

PDF OPTIONS

- Change document settings to be uniform across an entire submission, including the Document Information fields, Open File options, and Security options.

OPTIMIZE

- This has been enhanced to accommodate many more changes to a PDF document and setting while optimizing the PDF structure. This includes:
 - Downsizing an image's resolution.
 - Converting color images to monochrome
 - Removing embedded constraints or fonts

BATCH

- Run more functionality across all of your documents through the addition of tools such as Scale PDF, iEnhance, Mask, and Java Scripting.

EXPORT/IMPORT

- Users now have the option to export and import Acrobat notes from a document such as an Excel file for easy of use and reporting.

SAVE PDF AS

- Convert PDF files to other formats, including Word, multipage TIFF, and HTML.

COPY LINKS

- Transitioned from Compose, Copy Links add navigation to multiple pages—especially beneficial for forward and back navigation for publishers.

PAGE MAPPER

- Create and use a Page Map and set the logical page number within your document, allowing for all variations of pagination to be revealed and supported when using the TOC Bookmarks and Links, TOC Builder, Page Stamper, and more.
